He isn't, I believe he retired. I can see if PADEP has updated this since though.

Hello

This was the first milestones chart. I will continue to search for others but think if we can fill this one in with completion d/approval/status we will all be well served. peg

Hi Chris,

I'm trying to get a handle on where Reading is with complying with the requirements of the CD. I took your tracking system and the CD and made this spreadsheet. The next step is to go through the documents and determine Reading's compliance dates. The last step will be to review Reading's Quarterly Reports and use what they have indicated as compliance dates. Although, I don't like to rely on them for this.

If you get a chance, can you input any dates that you know apply to the milestones?

Thanks
